Your global data protection partner

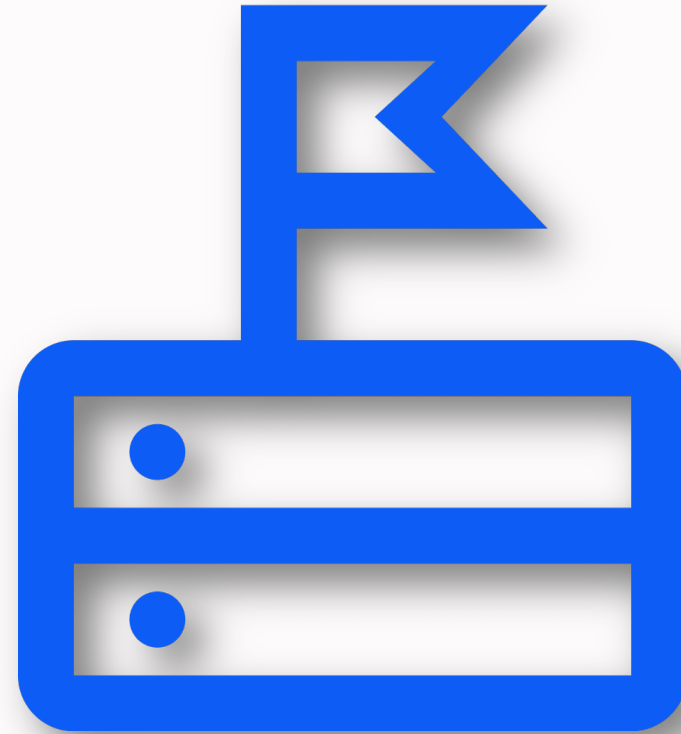

- Founded in the EU and headquartered in Copenhagen, Denmark with a global footprint
- Deep understanding and adherence to all global and local regulatory frameworks
- Full focus on SaaS

The intelligent choice

Vendor-independent Cloud

- Keepit owns its infrastructure – storage included – independent from public cloud services or hyperscalers
- Backups remain firmly segregated and compliant with the highest security standards
- No third-party sub processors involved reducing risks to your data

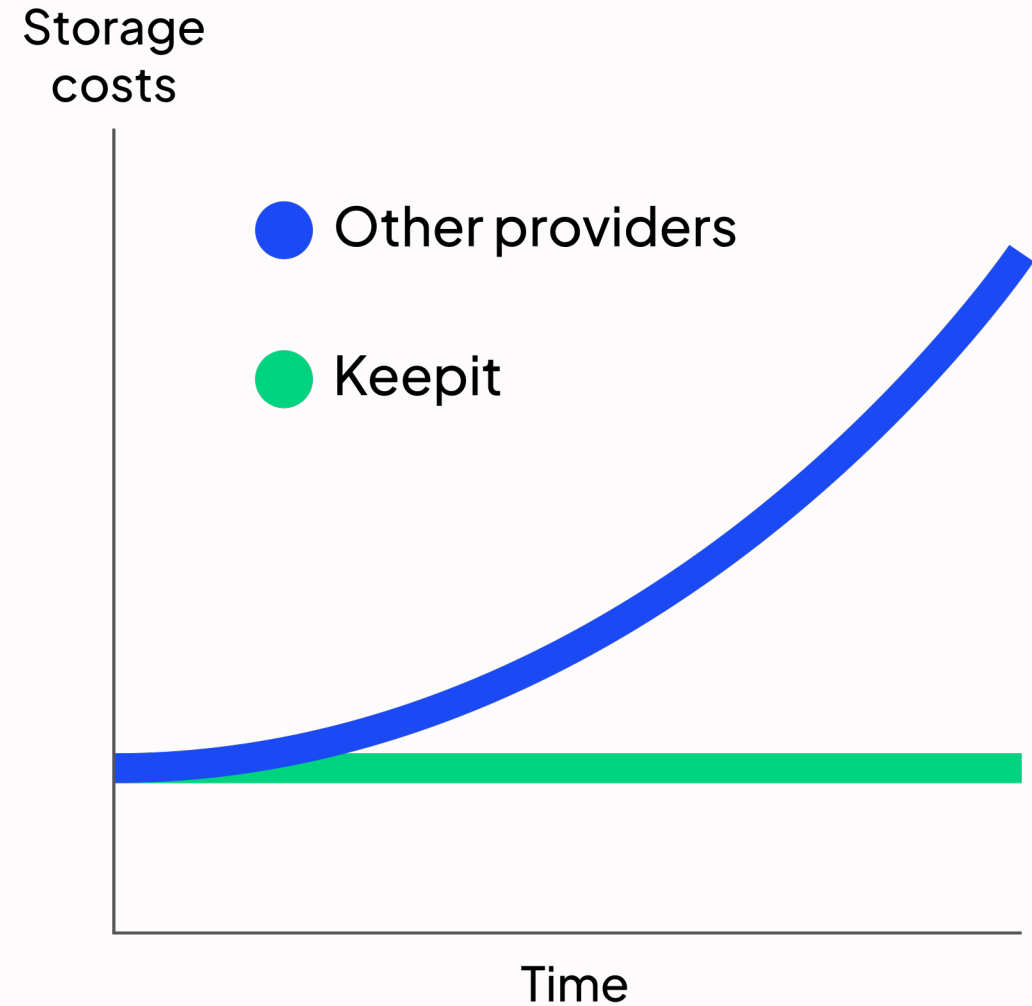

The intelligent choice

Transparent cost

- Pricing based on seats
- Concurrent licensing
- Unlimited storage
- Unlimited (99 years) data retention
- Data ingress or egress included

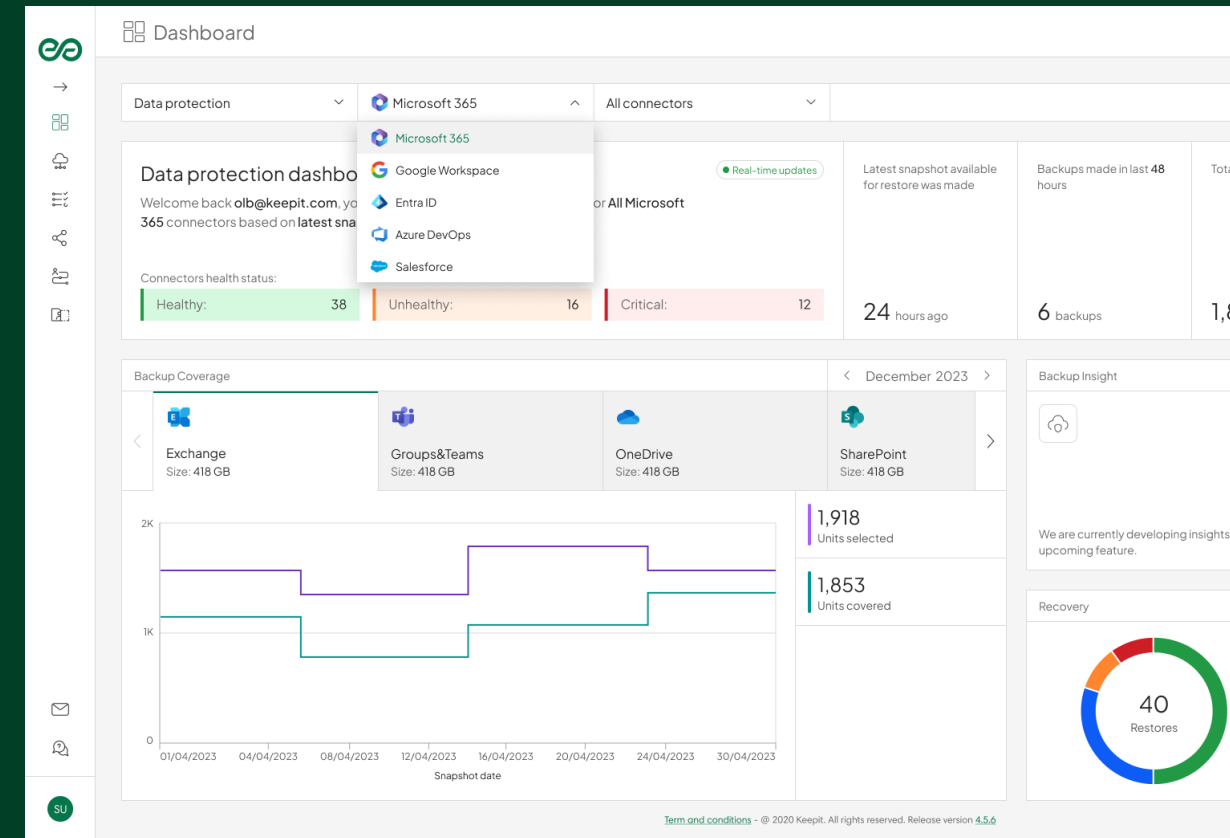

The intelligent choice

Unified platform across SaaS applications

- A single pane of glass for reporting and compliance across applications
- Full visibility and transparency
- Standardized, streamlined processes for optimal productivity

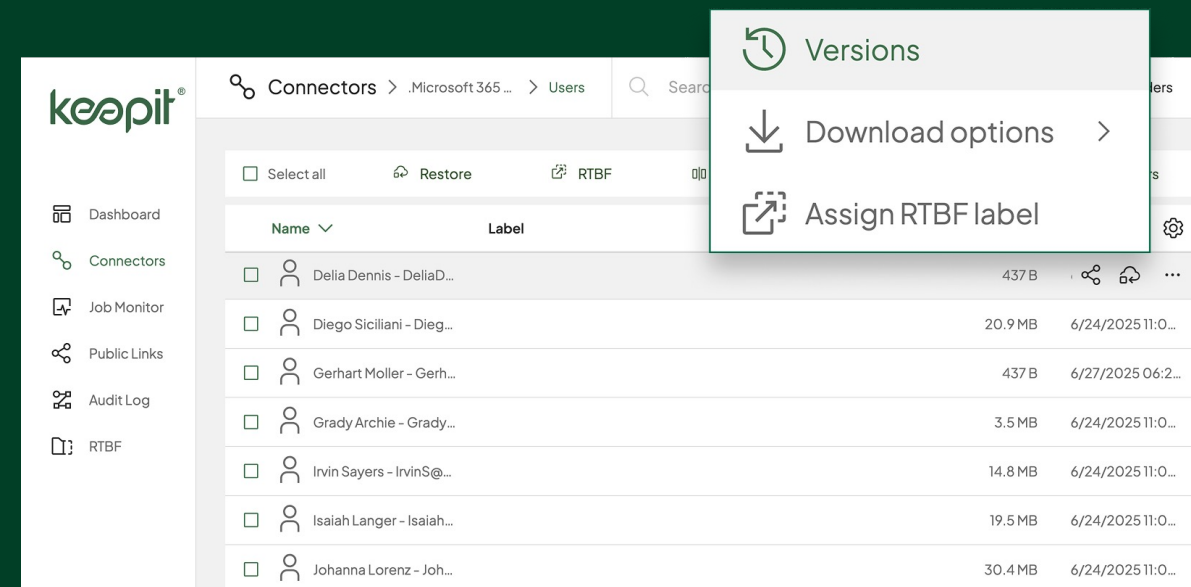

The intelligent choice

Flexible restore options

- Multiple restore options – in bulk or granularly – supporting diverse recovery scenarios
- Intuitive capabilities to easily compare and preview data
- Snapshot comparison in combination with handy filter options – easily find what's missing

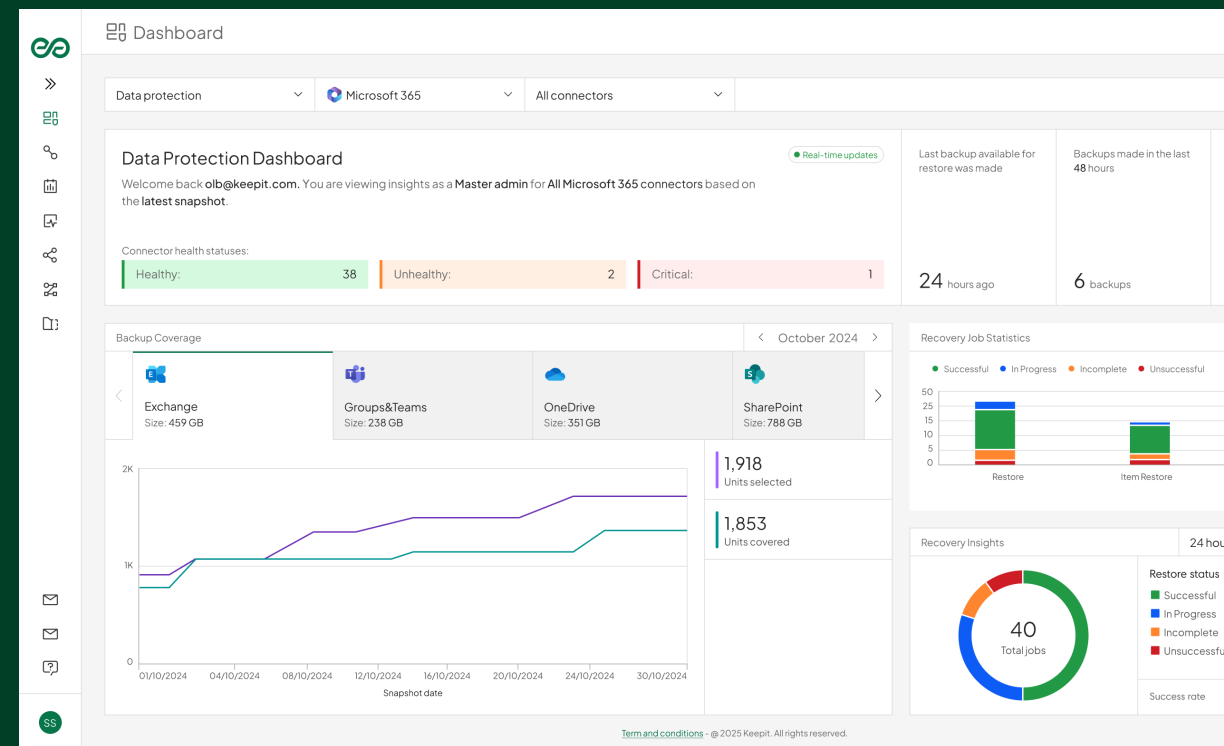

Intelligent recovery

Direct access to all versions of your data

- Instant access to everything, from everywhere, anytime, from any device
- Intuitive search function with preview option prior to restore
- Data can always be previewed, shared or restored without hydration periods

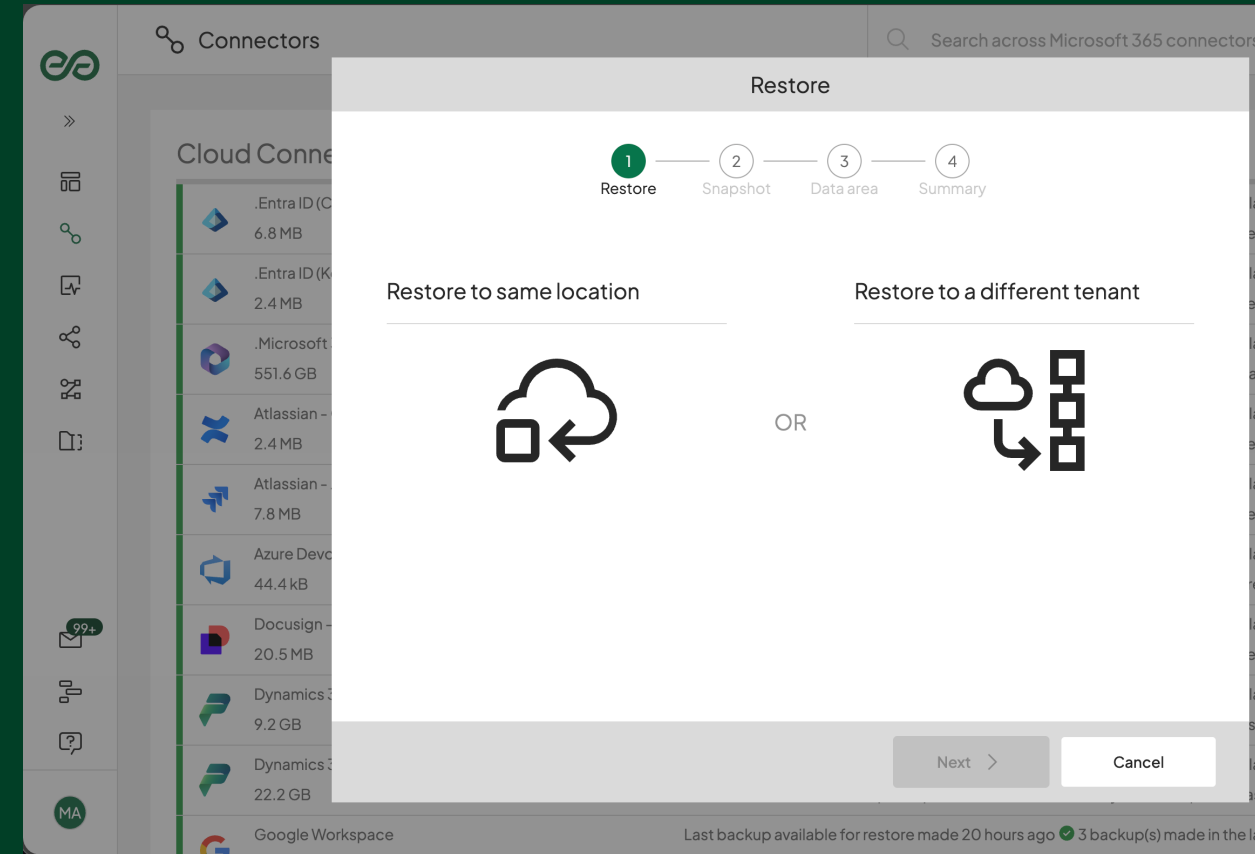

Intelligent recovery

Business Continuity

- Restore to another tenant
- Don't wait for a restore to complete – make use of our public link and get immediate access to your data
- Test disaster recovery scenarios whenever you need

Intelligent recovery

Tried, tested, and proven
